Results-driven Software Engineer with 2.8 years of experience leading full-stack initiatives and mentoring junior developers in agile teams. Proven ability to deliver high-impact features and optimize performance through collaboration.

EDUCATION

- **Indian Institute of Engineering Science and Technology** WB, India
Bachelor of Technology in Computer Science and Technology; CGPA: 7.76 *July. 2018 – Jun. 2022*

WORK EXPERIENCE

- **Capgemini** Hyderabad, India
Senior Software Engineer *Sep 2022 - Present*
 - **SAB:** Developed a modern, multi-lingual, feature-rich public Saudi Bank website. Handled the complex screens, which were a major challenge in development. Successfully passed all phases of testing.
 - **Open FinTech API Hub:** Created an internal API hub for FinTech-related APIs using Angular and PHP. Led a team of 5 freshers, assigning tasks, reviewing code, and handling deployments.
 - **Atradius:** Atradius is a credit insurance company. Focused on reducing defect count and maintaining quality for critical operations in the application.

Achievements:

- Successfully delivered complex components that were pivotal to project success.
- Improved application performance and user experience through innovative solutions
- Demonstrated strong problem-solving skills and the ability to handle high-pressure situations effectively.

PROJECTS

- **Teetoise:** Co-founded Teetoise - a clothing brand, focusing solely on building the platform. Developed, deployed and tested a fully functional e-commerce site with secure checkout, order tracking, and an admin panel for managing products and orders. Managed technical integrations and ensured smooth operations. Teetoise donates 25 percent of its profits to support girl child education in India.
- **CoreCapMaths** : Developed a web application for Corecapmaths, an EdTech platform, incorporating features such as course management, interactive notes, and progress tracking. Implemented secure authentication and integrated payment gateways. Additionally, built an admin dashboard to ensure efficient content and user management .
- **React Advanced Sandbox** : Developed an open-source sandbox demonstrating advanced React patterns. This resource helps developers learn and reference these concepts easily, with live examples optimized for performance and user experience.

CERTIFICATES

- Capgemini React/Angular Ocean Certified
- Machine Learning Practical Applications
- Agile Development (Coursera)
- Cryptography and Hashing Fundamentals

PROGRAMMING SKILLS

- **Languages:** Java, JavaScript, TypeScript, SQL, C++, HTML/CSS
- **Technologies:** React, Next.js, Angular, Node.js, Spring Boot, AWS, Git, Jira, Confluence
