Software Engineer with 2.5 years of experience in building scalable web applications across fintech, banking, and edtech domains. Skilled in end-to-end development, team collaboration, and delivering high-quality solutions under tight deadlines. Built platforms in e-commerce and education, focusing on performance, usability, and impact.

EDUCATION

Indian Institute of Engineering Science and Technology   WB, India
Bachelor of Technology in Computer Science and Technology; CGPA: 7.76   *July. 2018 – Jun. 2022*

WORK EXPERIENCE

Capgemini   Hyderabad, India
Senior Software Engineer   *Sep 2022 - Present*

- **SAB**: Developed a modern, multi-lingual, feature-rich public Saudi Bank website. Handled the complex screens, which were a major challenge in development. Successfully passed all phases of testing.
- **Open FinTech API Hub**: Created an internal API hub for FinTech-related APIs using Angular and PHP. I led a team of 5 freshers, assigning tasks, reviewing code, and handling deployments.
- **Atradius**: Atradius is a credit insurance company. I Focused on reducing defect count and maintaining quality for critical operations in the application.
- **Achievements:-**
  - Successfully delivered complex components that were pivotal to project success.
  - Improved application performance and user experience through innovative solutions
  - Demonstrated strong problem-solving skills and the ability to handle high-pressure situations effectively.

PROJECTS

- **Teetoise**: Co-founded Teetoise - a clothing brand, focusing solely on building the platform. Developed, deployed and tested a fully functional e-commerce site with secure checkout, order tracking, and an admin panel for managing products and orders. Managed technical integrations and ensured smooth operations. Teetoise donates 25 percent of its profits to support girl child education in India.

- **CorecapMaths**: CorecapMaths (ongoing) – an ed-tech platform simplifying math for high school students. Built and deployed web and mobile apps with course management, interactive notes, progress tracking, and real-time doubt support. Integrated secure auth, payments, and an admin dashboard for content and user management.

CERTIFICATES

- Capgemini React/Angular Ocean Certified
- Machine Learning Practical Applications
- Agile Development (Coursera)
- Cryptography and Hashing Fundamentals

PROGRAMMING SKILLS

- **Languages**: Java, Javascript, SQL, C++, HTML/CSS
- **Technologies**: React, Spring Boot, Angular, NodeJS, AWS EC2/Amplify, Git, Jira
